Project Experience

Tata Consultancy Services **October 2021-Present**

Functional Analyst – Microsoft Dynamics 365 BC/Nav

Key Projects / Client Engagements:

Client 1 – AkzoNobel | Industry: Chemicals & Coatings

- Provided functional support for Microsoft Dynamics 365 Business Central (v27.5), ensuring smooth daily operations and resolving user issues.
- Initiated technical support activities, including troubleshooting, customization, and performance optimization.
- Led version upgrade projects, migrating Business Central from v27.5 to the latest release, ensuring minimal downtime and full compatibility with existing processes.
- Collaborated with business stakeholders to implement configuration updates and process improvements, enhancing system efficiency.
- Delivered L1, L2 functional support and began extending into technical support, bridging both functional and technical expertise.

Client 2 - Global Reporting Initiative (GRI) | Industry: Reporting Based Company

- Actively participated in sprint meetings with end-users to gather detailed requirements and configure setups in Microsoft Dynamics 365 Business Central, including posting groups, workflows, and process automation for smoother business processes.
- Managed comprehensive user testing sessions (UAT), prepared structured test case scenarios, and developed clear user manuals to ensure successful adoption and ease of use for new features.
- Delivered consistent L1 and L2 functional support in Business Central, ensuring timely resolution of tickets and minimizing business disruption during daily operations.
- Collaborated closely with business users to implement configuration updates and process optimizations, driving improvements in operational efficiency and system performance.

Client 3 - International Flavors & Fragrances (IFF) | Industry: Manufacturing

- Delivered Techno-functional support across Finance, Sales, Purchase, Inventory, and Fixed Assets modules.
- Designed, customized, and supported reports in NAV (5.0v) while performing modifications and enhancements to meet evolving business needs.
- Managed user accounts, role-based permissions, and system configurations, ensuring secure and efficient operations.
- Assisted in data migration and validation activities, including migration from NAV to SAP, with data correction in live systems.
- Provided end-user training, developed user manuals/knowledge base articles, and ensured smooth adoption of new features.
- Handled L1, L2, L3 support, including root cause analysis, issue resolution, and month/year-end financial closing support.

Project Experience

Client 4 - Ferring Pharmaceuticals | Industry: Pharmaceutical

- Supported a Germany-based pharmaceutical client using Microsoft Dynamics NAV 2016, ensuring seamless integration between Coupa and NAV to streamline procurement and financial processes.
- Delivered comprehensive functional support across Finance, Sales, and Purchase modules, enabling smooth day-to-day operations and accurate transaction handling.
- Collaborated with business users to resolve functional issues, optimize configurations, and maintain system stability for critical pharmaceutical workflows.
- Provided ongoing assistance during post-implementation, including troubleshooting, documentation, and user guidance to ensure effective system utilization.

Achievements

- Awarded **Star of the Month Award** in April'26 for consistent high performance and contribution.
- Awarded **Appreciation Certificate** by client and organization for exceptional contributions.
- Earned formal recognition from clients and the Project Manager for consistently delivering successful project outcomes.

Certifications

- Microsoft Certified: Dynamics 365 Business Central Functional Consultant Associate (**MB-800**).
- Microsoft Certified: Azure Fundamentals (**AZ-900**).
- Microsoft Certified: Power Automate RPA Developer Associate (**PL-500**) (Expired).
